THE STRIKE BROKEN.

The Worst Is Over in the Pennsylvania Coke Region.

RIOTING HAS BEEN STOPPED.

Lawbreakers Thrown Into a State of Demoralization by a Firm Stand Taken by the Authorities—State Troops Were Not Called Out—Only a Few New Outbreaks Occurred.

UNIONTOWN, Pa., April 6.—Unless there is a radical change in the situation in the Pennsylvania coke region within the next 12 hours the strike of the miners and cokers is about broken. The authorities have taken a stand and are determined to put down the rioters at any cost now. This policy has thrown the lawbreakers into a state of demoralization.

After the sheriff's posse concluded the engagement with the mob which murdered Chief Engineer Paddeck and landed the leaders and over 100 strikers in the county jail, everything quieted down immediately and the reports from every point in the region show that the lawless hordes have been generally subjugated.

Small outbreaks occurred at several places early yesterday morning, but as the day advanced the strikers lost courage, and the mobs which camped out the previous night, intending to make raids at every working plant at daybreak, commenced to diminish in size and by the time that half the route of each mob was covered, the forces were almost completely disbanded.

Thus commenced the beginning of the end of what was intended to be the greatest strike of coal miners and coke workers in the history of the country.

The strikers elected a new leader at a delegate convention at Scottdale yesterday named Alex Markey, who takes the place of President L. R. Davis, who is now behind the bars here under the charge of murder. The strikers are still making threats of breaking into jail here and setting those imprisoned free.

The reports that Sheriff Wilhelm had given up and applied to Governor Patterson for troops to preserve the peace and protect the lives and property of the workmen who want to work, and the coke operators who want to give them employment, is untrue. Sheriff Wilhelm was on the point of calling on the state authorities for military aid when the mob killed Engineer Paddock at Davidsen, but concluded not to do so, after consulting with his attorney.

The turning point came after the battle between the posse and the mob at Broadford, and the sheriff found it unnecessary then to apply for military support.

The community was startled by a report yesterday afternoon that the dead bodies of eight Hungarians had been found in the woods near Dawson. This report has not as yet been verified, and Coroner Batton says that the reports he has received from his deputies do not indicate the truth of the report.

Work at the coke plants yesterday was confined to the same number running on Wednesday. Very few attempts were made by the strikers to drive the workmen out.

The Fayette county commissioners will apply to the courts to hold an extra session of court at once to try the strikers on the various charges against them. This action is made necessary by the crowded condition of the jail, 150 prisoners being confined there. They are not provided with provisions for feeding and keeping that number. They are compelled to sleep on the floor, and their food supply is very short.

A meeting of strikers was held at Dnbar yesterday evening, at which great weakness was shown, and at 10 o'clock they disbanded.

Reports show that the strikers are disbanding at every point and the men appear completely subdued. The authorities, however, will take no chances, and armed guards are everywhere, while citizens in every town in the region are walking around with guns and rifles in anticipation of trouble at any moment.

A massmeeting of strikers will be held at Scottdale on Saturday for the purpose of deciding whether or not to declare the strike off.

Notwithstanding the fact that President Davis and Secretary Darby of the Mine Workers union are behind the bars, the newly elected president, Markey, and other leaders claim that the strike is not broken. They say that while the strikers will do no more marching or raiding, organization is still going on, and the men now out will remain out. Saturday's meeting, however, will decide the matter.

DEATH OF A PROMINENT PRIEST.

St. Patrick's Roman Catholic Church in Washington Loses Its Pastor.

WASHINGTON, April 6.—Rev. J. A. Walter, pastor of St. Patrick's Roman Catholic church, died suddenly at his home Thursday of heart failure, aged 66 years.

Father Walter became pastor of St. Patrick's church in 1860. He was the spiritual adviser of Mrs. Surratt and, interesting himself in her case, appealed to President Johnson on several occasions for a commutation of her sentence.

He believed in her innocence and became so enthusiastic in his attempt to have her pardoned, that his action became offensive to some citizens of Washington, who informed him that if he persisted in his efforts he would be summarily dealt with.

His answer was: "I fear neither man nor devil; I fear God alone, and I am ready at the risk of my life to defend the character of the lowliest person in my congregation."

His funeral will take place Monday, and Bishop Keene will officiate at the high requiem mass.

OVER A MILLION DOLLARS MORE.

The House Passes the Urgent Deficiency Bill—Tariff Talk Delayed.

WASHINGTON, April 6.—In the house James Iseler, elected to succeed Mr. Brawley as representative of the First South Carolina district, took his seat.

The house refusing to accept the Senate amendment to the bill requiring railroads in Oklahoma to establish stations at government towns sites, another conference was ordered.

The senate bill to give effect to the award of the Paris tribunal prescribing regulations for the protection of seals in Behring sea, was passed.

Mr. Boatner's resolution calling upon the attorney general for a statement of what the government is doing for the protection of its interests in the Union Pacific railway, was adopted.

Bills were passed authorizing the construction of bridges across the St. Louis river between Wisconsin and Minnesota at Duluth and Grasse Point.

The house then went into committee of the whole, and after some good natured banter by Mr. Reed on the subject of the "billion dollar congress," the urgent deficiency bill was taken up. The bill, which carries something over \$1,000,000, was passed with one important amendment, providing for the continuation of the work of the census bureau until March 4, 1895, and providing for the publication in a condensed volume of 250 pages of an abstract of all the data procured by the census.

After the deficiency was disposed of, the consideration of the postoffice appropriation bill was resumed. Only one amendment was adopted—setting aside \$30,000 for the establishment of star routes to new postoffices. The main fight will come on the amendment to abolish the \$200,000 subsidy for the fast southern mail trains running between Springfield, Mass., via New York and Washington to Atlanta and New Orleans.

In the Senate.

WASHINGTON, April 6.—In the senate some amusement was created by the introduction of the following resolution by Mr. George of Mississippi:

"Resolved, that in view of the present depressed financial condition of the people, the low price of agricultural and other products, the indebtedness of the people and the increased value of money the committee on the judiciary be directed to prepare a bill to reduce by 20 per cent all official incomes not protected by the statutes of the United States.

The resolution was referred in accordance with its terms.

At the request of Senator Hausebrough of North Dakota the senate took up the bill appropriating \$1 million dollars for the destruction of the Russian thistle.

The measure was discussed until 2 o'clock when the tariff bill was laid before the senate as the unfinished business, and the Russian thistle bill went over without action.

Mr. Peffer of Kansas was recognized, but Mr. Call asked the senator to yield for a motion to go into executive session, which Mr. Peffer agreed to do on condition that it would not last too long, and that he should be entitled to the floor when the senate resumed its open sessions.

Mr. Harris, however, who had asked Mr. Peffer not to yield as he did not wish the tariff bill interfered with, objected to the motion of Mr. Call, and demanded the yeas and nays.

The roll was called and the motion prevailed, 31 to 19, and at 2:08 p.m. the senate went into executive session, which lasted until 5:10 p.m., when the senate adjourned.

Latter Day Saints' Conference.

LAMON, Ia., April 6.—Large numbers of people are here from every part of the country in attendance on the Latter Day Saints' conference. Representatives from Australia, England, and Wales are present and a host of visitors and delegates from every part of the United States and Canada. This body is now being recognized as the legitimate and genuine successor of the church founded by Joseph Smith prior to his death at Nauvoo, June 27, 1844.

Time for Action.

BUENOS AIRES, April 6.—The sanitary condition of the Portuguese warships Mindello and Affonso de Albuquerque is so bad that the Argentine government has insisted that those on board the vessels be landed at the Lazaretto, or that the vessels depart. Yellow fever recently broke out on those two vessels and has caused many deaths. Aboard the vessels are Admiral Da Gama and the other Brazilian refugees from Rio Janeiro.

Four Men Drowned.

COLUMBUS, Ga., April 6.—Four men were drowned in the Chattahoochee river opposite this city yesterday afternoon. Five men were out fishing, the boat was capsized and all except one man went down. The occupants were: G. W. Driggers and his son, Millie Driggers; Will Adams, Will Lavender and Will Ridenauer. The elder Driggers was rescued by men on shore. All were fishermen.

Women Can Vote in Iowa.

DES MOINES, April 6.—Action of great importance to the women of Iowa was taken in the legislature yesterday. The senate passed the house bill conferring on women the right to vote for town, city and school officers and on all questions of issuing bonds. This is the first time women have been given this right in Iowa. The vote was 27 to 20, with three absences.

Victims of a Mob Found.

SELMA, Ala., April 6.—A gentleman from Augusta county reports the finding of the bodies of two negro men in Mulberry creek, about nine miles from Selma. The two were tied together with a rope and their ears were cut off. They are believed to have been the murderers of Mrs. Jessie Rucker in Chilton county several weeks ago.

SOLDIERS RECALLED.

No Further Insurrection in South Carolina.

SO SAYS GOVERNOR TILLMAN.

He Issues a Proclamation Restoring the Civil Status—Two Men Held Responsible for the Killing at Darlington by the Coroners' Jury—The Supreme Court Declares the Law Unconstitutional.

COLUMBIA, S. C., April 6.—Darlington and Florence are no longer in insurrection, and the state troops will evacuate those new famous localities and proceed to this city to receive the "well done" of Governor Tillman, together with their \$1,50 per day.

The governor last night issued a proclamation stating that: "Whereas, the commanding general has just informed me that the insurgents have dispersed and that peace and order are restored, and that the civil authorities are now able to uphold and enforce the law."

He accordingly declares that in the counties of Darlington and Florence there is no longer insurrection and the civil status is hereby restored.

Governor Tillman is already beginning to reorganize the state militia. Only 18 companies responded to his call to go to Darlington and he intimates that there will be a series of court-martials. Officers will proceed to Charleston to collect all the state arms and accoutrements there and bring them to the state armory here. Similar action will probably be taken all over the state.

CORONER'S VERDICT.

Two Men Held for the Killing at Darlington, S. C.

DARLINGTON, S. C., April 6.—The coroner's jury here rendered a verdict to hold McLendon for the killing of Norment Cain for the killing of Redmond and that Redmond killed Pepper. The military court will first submit its report to Governor Brown, but it is understood to concur as to the facts as they have been published.

Warrants will be issued for the arrest and imprisonment of McLendon and Cain on the charge of murder. It is said they will appeal before one of the Tillman's supreme court judges and apply for bail upon a writ of habeas corpus.

Three constables came to town yesterday. They were recognized by the citizens, but as soon as the fact was reported to General Richburg they were escorted toward North Carolina as a precautionary measure.

The embargo on the Western Union office at this place has not yet been raised, and all telegrams still have to be submitted for inspection. A squad of men guard the entrance to the office and no news dispatches are received.

Major Blalock, who took an inventory of the stock in the dispensary, reports a shortage of \$2,50.

Hurrying Up the Supreme Court.

CHARLESTON, April 5.—The city council of Camden has memorialized the supreme court of South Carolina to take up without delay and pass upon the constitutionality of the dispensary law and thereby terminate the tense condition of the public sentiment, which was the cause, in a large measure, of the tragedy at Darlington. Other municipalities will doubtless follow the example set by Camden.

THE LAW UNCONSTITUTIONAL.

It Is Reported That the Supreme Court Has So Decided.

COLUMBIA, S. C., April 6.—A dispatch from Darlington to the Columbia State says that an opinion in the dispensary cases has already been drawn up and has been signed by Justices McIver and McCown, and has been sent to Justice Pope, in whose hands it remains. The State says that the opinion declares the act unconstitutional, but whether in whole or in part, it is not ascertained.

The state's correspondent says the news came to him from three sources, through intelligent gentlemen who have reliable means for information and he relies upon it as confidently as though he had himself inspected the document referred to. It has further stated that a decision had been in Justice Pope's hands for the past three weeks.

BLOODSHED IN THE WEST.

Many Indians and Settlers Reported Killed in Oklahoma.

EL RENO, Okla., April 6.—A courier just in from the locality of the Indian trouble reports the fighting still in progress. The soldiers have been engaged, and at 6 o'clock Wednesday night 14 soldiers and settlers had been killed or wounded and 28 of the Indians known to be killed.

The Indians are practically surrounded on the Washita river, but the bushwhacking continues.

Each party is shooting at every opportunity. The sheriffs of G and H counties have organized and gone to the assistance of settlers. All the soldiers from Fort Reno are now in the field except three troops of cavalry.

The courier is from the sheriff of G county who sends for ammunition and assistance. His brother here has hastily organized a party and left for the battle ground.

The fighting has greatly alarmed the people and the most intense excitement prevails. Parties are hastily organizing and going to the fight and much alarm is expressed at the number of soldiers who have been killed.

The malcontent Indians are gathering in bands of 50, and picking off smaller bands of whites unable to cope with them in battle. A party of 150 cowboys are said to be scouting the country in the vicinity of Segar Indian colony and putting to death the Indians as fast as found.

PRESIDENTIAL PARDONS.

Action Taken on a Number of Petitions on Behalf of Prisoners.

WASHINGTON, April 6.—The president has granted pardons in the following cases:

William Dunn, sentenced in Nevada to 10 years' imprisonment and \$1,000 fine. The reason assigned is the failing health of the prisoner.

Simes E. Chandler, sentenced in Illinois to two years' for conspiracy. Pardon to restore citizenship.

William Crazier, sentenced to one year in Arkansas for larceny, reason, failing health.

Sakris Silvelo, convicted in Michigan of violating the postal laws, sentence deferred and pardoned because of doubt of criminal intent.

Charles E. Miller, sentenced in 1892 to four years' imprisonment in Japan. Pardoned on account of impaired health.

Seth Johnson, sentenced in Utah to four months for adultery. The sentence having expired he is restored to citizenship.

Rufus Atkinson, sentenced in Texas to one year and \$30 fine. Fined remitted.

William Hoffman, sentenced in northern New York in 1893 for two years and \$3,79 fine, for violation of the postal laws. Pardon granted on account of his crippled condition and his dependent family.

Jack Brock, sentenced for life in Texas for robbing mails and using deadly weapons. Pardon granted on account of good behavior and doubt of guilt.

William Gates, sentenced to one year and \$100 fine in West Virginia for illicit distilling. Pardoned to restore citizenship.

Chris L. Olsen, sentenced in Idaho to one year for perjury. Pardoned to restore citizenship.

Rhode Island Election Returns.

PROVIDENCE, April 6.—The corrected election returns from all parts of the state show that the Republican victory is even greater than at first supposed. Governor Brown is re-elected by a plurality of over 6,000, the entire Republican state ticket is victorious by about the same plurality, and the Republicans have 102 out of 108 members of the grand committee. The next United States senator will be a Republican, and George Peabody Wetmore was accepted by the convention, his election may be said to be assured.

Murder in the Dark.

CHARLESTON, W. Va., April 6.—Last night at Cauley, James Smith shot and killed Lorne Brown, fatally wounded Jim Brown, her husband, and seriously wounded Sarah Haney. Smith went to the house intending to shoot the Haney woman and shot the other two in the dark while trying to murder her. He made his escape and is looking for a man who, he claims, alienated Sarah's affection.

Country Store Robbed.

MARTINSVILLE, Ind., April 6.—The stores of W. W. Davis and John Prather at Van Sickles, six miles southeast of here on the Fairland and Martinsville branch of the Big Four railroad, were robbed. Considerable merchandise was taken from each, and in addition the postoffice, which is located in Prather's store, lost \$10 in stamps. There is no clew to the robbers.

Fortune For a Poor Hoosier.

BRAZIL, Ind., April 6.—J. S. Danham, Philadelphia lawyer, was in this city yesterday on his way to Saline City, a little hamlet south of here, in search of James Ferguson, who is one of the heirs to the Brown estate in Philadelphia, estimated at \$1,000,000. Ferguson is very poor, but respectable, and knows nothing of the good fortune in store for him.

Killed by the Cars.

NEW ALBANY, Ind., April 6.—John Cunningham of Crawford county, age 60 years, was killed near English, 30 miles west of here. He was returning from Evansville on the Air line, and fell from the platform under the wheels. He was instantly killed. His body was terribly mangled.

THE INCOME TAX.

Senator Voohees, in opening the debate on the tariff bill, had the following to say in reference to the income tax clause:

The proposition contained in the pending bill to levy a tax of 2 per cent. on all net incomes of corporations and of individuals in excess of \$4,000 per annum is so just and equitable toward the hard working taxpayers of meager resources throughout the entire country, that no word in its defense or explanation would seem necessary here or anywhere else.

On all the wants and necessities of life the man of wealth, with a heavy income, pays less rates of tariff tax under existing laws than the laboring man or laboring woman whose wearing apparel is of coarser material, and whose household living is supplied with cheaper goods bearing higher rates of duty. His bonds, his accumulated riches of all kinds, and all incomes arising from them, are exempt from all Government burdens, remaining not only undiminished and unmolested amidst darkened homes and flagrant distress, but' growing fatter, stronger and more defiant as the days and the years go by.

In considering the income tax, the most extraordinary and startling fact we discover is the very small number to whom it applies.

The Commissioner of Internal Revenue, in a recent communication to the Ways and Means Committee of the House, estimates the present population of the United States at not less than 65,000,000 and the wealth of the country at \$65,000,000, or an average of \$1,000 per capita, if there was an equal distribution. His further estimate, however, is that so great has been the condensation of capital into the ownership of small and powerful class that the tax here imposed on incomes of over \$4,000 will reach only about 85,000 individuals and corporations out of more than 65,000,000.

These figures may well give the country cause to pause. They recall the worst days of Rome and of other governments, both ancient and modern, whose liberties were lost by the accumulation and power of wealth in the hands of patrician aristocracies.

Praise From the Enemy.

Vanceburg Sun: "Hon. R. K. Hart, of Fleming, was in town last week, looking after his political fences. Rolla has started after that plum, and if you don't want to get run over, just get off the way. There is no longer any question as to who the Democratic nominee will be; that question is practically settled. Rolla will as certainly be the nominee as the sun shines. Well, we would like to beat him, and will if we can, and if we cannot, we have this to say, we would as soon see Rolla there as any Democrat in the district."

List of Accounts—Allowances For Support of Paupers—Appropriation for a Bridge!

All the Justices were present at Thursday's session of the Fiscal Court, Judge Phister presiding.

'Squire Luttrell offered a resolution inquiring whether the debt due the county from the city of Maysville for the use of the jail for city prisoners has been paid, and if not why its collection hasn't been enforced as ordered a year ago. County Attorney Newell explained to the court that suit had been instituted and was now pending for the collection of said debt.

A sum not to exceed \$2,000 was appropriated in the hands of 'Squires Mannen, Farrow and McIlvaine to build a bridge over the North Fork near Farrow's Mill ford.

A motion to proceed to the election of officers was laid on the table.

An application of citizens and tax-payers for an appropriation of \$1,000 to build a bridge over Beasley Creek, just west of Maysville, was presented and on motion laid on the table.

The report of R. L. Fox, committee of Charles Washington, was received and filed.

HON. J. L. McMURTRY, of Garrard County, it's reported, will file, at an early date, a petition with the Court of Appeals for a mandamus compelling the Secretary of State to ignore the last apportionment of the State into seven Appellate districts, alleging a "gerrymander" in this, that the Fourth district, composed of Jefferson County, has a population of only 188,598, while the Fifth district has 310,444.

At Covington this week the United States Court issued rule against the County Judge and nineteen Justices of the Peace of Carter County, to show cause why they have not made a levy and collected the tax to pay the judgment of the court on railroad bonds held by David Sinton, of Cincinnati, and to show cause why they have not been in contempt of court by failing to obey the order made at the last term. The rule is made returnable May 1, and unless satisfactory reasons are given the whole crowd of Carter County officials are likely to go to jail.

Mr. W. H. Robb, of Helena, was re-elected a director of the Farmers' and Shippers' Warehouse Company of Cincinnati this week. The meeting of the stockholders resulted in the re-election of President D. C. Collins and George W. Green, Secretary and Treasurer. The full directory is as follows: Dr. W. A. Bradford, Butler, Pendleton County; W. H. Robb, Helena, Mason County; Judge George W. Payne, Georgetown, Scott County; M. L. Kirkpatrick, Ripley; J. D. Hearne, President of the Third National Bank, Cincinnati; Henry Worthington, Covington. The company during the past year handled 18,950 hogsheads of tobacco. The company is the only one outside of the combine at Cincinnati, and is in good condition.

NOTICES prohibiting the Indiana Mutual Building and Loan Association of Indianapolis, the Equitable Loan and Investment Association of Bloomington, Ill., and the Lower Market and Equitable Loan and Building and the Fifth Ward Building and Loan Associations of Cincinnati, from doing business in Kentucky have been sent to Louisville and Covington papers for publication by the Attorney General and the Secretary of State. It is alleged that these associations have been doing business in the State without complying with the provisions of the Corporation law affecting foreign building and loan associations. Any one who hereafter solicits or transacts any business for them will be liable to a fine of not less than \$50 nor more than \$100 for each offense.

MUNICIPAL MATTERS

Monthly Meeting of the Men Who Manage the City's Affairs.

Reports of the Various Officials—The Laundry and Laundry Agents Must Pay License.

All members of the City Council were present at the regular meeting last evening.

President Cox also reported that John Fansler, clerk in Geo. M. Deiner's saloon, had been convicted and fined for selling liquor to a minor, and another heated discussion ensued as to whether this operated as a forfeiture of Mr. Deiner's license. Mayor Cox claimed that the conviction operated as a forfeiture of Deiner's bond. Judge Wadsworth claimed that the keeper was not responsible for the acts of his clerk. The matter was continued until next meeting in order to get the opinion of the City Attorney.

The application of the Merchants' Insurance Company for a refund of license was voted down. The company has withdrawn from this city.

Dr. Stevens was granted permission to erect a stable on West Fourth street.

The Committee on Laws and Ordinances was directed to prepare and report a new ordinance regulating the licensing of insurance agents.

Makes Wise—1 Cor. 12:8. He wrote the Bible and He holds the key of the combination, and the Evangelist said he would rather have a man with the Holy Ghost to instruct an enquirer than a learned theologian.

Strengthens—Eph. 5:10. Mr. Fife here pleaded for courageous Christians. Some were afraid to pray before their own wives and children; couldn't confess Christ before a crowd. They ought to be filled with the Holy Ghost and then they would erect family altars.

Fills with power—Acts 1:8. Witness at home in your county or State, United States and everywhere. All who wanted the Holy Ghost power were asked to pray for it.

The meetings will continue to be held in the Baptist Church. Arrangements are being made by which the seating capacity will be increased.

The ladies' prayer meeting this afternoon at 3:30 will be held at the M. E. Church on Third street, on account of workmen being engaged putting additional seats in the Baptist Church.

AN ORDINANCE was passed, under a suspension of the rules, to prohibit the obstruction of a street or streets by any railroad or railway companies. The penalty is a fine of from \$25 to \$50.

The Committee on Claims and Accounts reported they had made a settlement with the personal representative of the late James Heflin, Marshal, and find that he owed the city the sum of \$279.76.

Mayor Cox reported that he had de-

clared, on March 19th, Patrick Tierney's liquor license forfeited for violations of the law. A long petition from people living and doing business in Mr. Tierney's neighborhood was read asking that his offense be condoned and that he be allowed to continue business. A heated discussion followed, Judge Wadsworth claiming that Council was the sole authority to revoke said license, and others that it had been forfeited by operation of law. Mr. Ficklin finally moved that Council take a vote on the question of forfeiting the license. President Cox declared the motion out of order, and no further action was taken in the matter.

President Cox also reported that John Fansler, clerk in Geo. M. Deiner's saloon, had been convicted and fined for selling liquor to a minor, and another heated discussion ensued as to whether this operated as a forfeiture of Mr. Deiner's license. ANOTHER PACKED HOUSE.

Evangelist Fife Talks of the Office and Work of the Holy Spirit.

Mr. Fife had a packed house to hear him again last night. The Evangelist is fast gaining the attention of the town.

Last night he spoke with great power on the "Office and Work of the Holy Spirit." His personality was discussed under such passages of scripture as Jno. 14:16, 17. A distinction was made between the Holy Ghost being in a man and upon a man; the Holy Ghost abiding in one and the Holy Ghost resting upon one for the service of the Master.

His work—He convicts, not the preacher or the church. Jno. 16:8. We preach and the Holy Ghost takes the word and carries it with convicting power to the heart of the sinner.

He regenerates—Jno. 3:3. Some have only the regeneration which the church can give. No more religion than a pig. Some have just wrapped church robe around them and gone off robe and all to wallowing in the mud holes of saloons, balls, &c.

Makes Wise—1 Cor. 12:8. He wrote the Bible and He holds the key of the combination, and the Evangelist said he would rather have a man with the Holy Ghost to instruct an enquirer than a learned theologian.

Strengthens—Eph. 5:10. Mr. Fife here pleaded for courageous Christians. Some were afraid to pray before their own wives and children; couldn't confess Christ before a crowd. They ought to be filled with the Holy Ghost and then they would erect family altars.

GERMANTOWN.

As many of your people are concerned in mining in the same region, I send you a portion of a letter of H. B. Savage, of Galena, Kan., thinking it may be of interest to them and others who have an inclination to invest their money "underneath the ground." Go West young man and grow up with the country!" Mr. Savage says: "One week we turned in 26 tons of free ore, \$16.50 and 100 tons of rough at \$3.25 a ton, and 15 tons of mixed at \$8.50 a ton, 12,000 pounds of lead at \$12.00 per ton. This amount is hoisted from a depth of eighty feet with a horse hoist and a tub the size of a half coal oil barrel. Only four men in ground break it and send it out. It is then dumped over a screen, the fine dirt falling through and the coarse passes over to a platform below, where a cut hand separates the lead from it, and the rest is thrown to one side and is sold as 'rough stuff' to the crushers, where it is crushed and washed to separate the zinc from the flint, sand, &c., that comes out with it. What passes through the screen we wash up at the mines, separating the lead and zinc ore, and what zinc is taken from this is turned free ore, and it takes three washings to clean it. This is done by placing it on a swinging sieve attached to long pole over a tank five feet square filled with water. A man takes the end of the pole and by shaking it up and down in the water separates the ore, a process called "giggling." The fine ore falls through to the bottom of tank; lead nuggets being heaviest settle on bottom of sieve, zinc settles on top of lead, flint on top of zinc and sand on top of all. After being well shaken the sieve is raised and each layer taken off and put in their respective piles. The flint and sand is wheeled away as waste. The lead and zinc is washed again through a sieve, so as to get all remaining waste from it and then passed over to a third tank where it is worked once more and then ready for market. All ores are turned in to dealers on Saturday and everything sold is cash down, and each Saturday night all hands and other expenses such as oil, powder, fuse, &c., are paid out and what is left is divided among owners, so that each partner takes his proportion and does as he chooses. Generally there are four partners to each mine. This comes from sinking the shaft from top of ground, for when a shaft starts there is no assurance it will go down on ore, and it is rather expensive for one to risk and carry it all, but generally can find four willing to put in \$100 each and take chances on striking ore, and a one-fourth interest is good property, as one week's time it will more than pay back all they are out if they strike good ore, but many a one is sunk that never strikes it, but there are still plenty left willing to risk, for one strike will repay a dozen failures. There are plenty of men in camp now that have been here for 10 and 15 years and sinking shafts right along never have found anything; others strike it almost at the start, and so it goes, all a game of chance. I have an interest in nine shafts and have found good ore in three of them. Others are not yet deep enough and may never get deep enough to find anything. Mining ground here is leased from the land owner in tracts of ten or more acres at a royalty of 20 per cent. Then it is surveyed off in lots from 100 to 200 feet square and again leased to miners at 20 per cent. royalty on all ores taken therefrom. Any one can lease as many lots as they are able to put shafts down, the only requirement being to sink shaft and continue at work in a workmanlike manner. If they fall to do this a ten day's notice is given, and if no more work is done inside of ten days lot is forfeited and leased to some one else. The cost of sinking an average shaft is about \$3 a foot, but some are much more expensive—as high as \$10 per foot—depending on ground sunk in. Ores are generally found at sides of limestone or slate bars, so in sinking shafts if they strike limestone or slate or cotton rock they generally quit and try another, aiming to get to the side of the bars, but the great trouble is to tell how far they run, and often all a whole lot is nothing but a bar, and then it is worthless generally in this camp, but in Joplin and Webb City they find their largest runs of ore under lime and at a greater depth than in this camp. The greatest expense in mining is to get rid of the vast amount of water found at such depths, but this is done by large steam pumps that are kept going day and night, until the ground is drained, usually done by the parties who have first lease. After good mineral is struck and the mine opened up, if it proves a good pan, it makes money fast and easy to the owner, but most of them spend it about the same way. I have seen young men here get as much as \$300 clear of all expense for their share on Saturday night and Monday morning have to borrow money to pay a week's board. It is "come easy, go easy" with the most of them, and there are numerous places here where they can drop it very easily. With the best of mines they are uncertain. You never know what day your stuff will play out. You may have it big one week and be blind the next, never to be found again, but many lots run from one to five years on big stuff, but you are never sure of what you have till the sun shines on it, as miners say. A good lot with a good pan of ore opened up is worth anywhere from \$1 to \$100,000. Good lots are often sold for a very paltry sum. One lot when I came here nearly a year ago sold for \$250; it has since cleared over \$10,000, and so it goes. It is hard to tell until they are worked what they are worth, and many a man has spent \$10,000 on several lots and never got back \$50, but they try again, for some have made fortunes while others lost."

MAYSICK.

A cold wave struck us Thursday morning. W. H. Arthur was on the streets last Wednesday. W. F. Abbott, of Paris, was registered at the Stonewall House last Thursday.

Alex Duke's horse broke loose where it was hitched and ran off with the buggy. No damage, but a big scare.

Mary Toun Wheatley left this week for Ewing, to prepare for her spring opening of tailoring goods.

We had quite a little scare last Tuesday. Judge Worthington was having some trash in his garden buried and the wind carried some sparks on the roof of a house near by and it caught fire. It was put out without much damage, but had it been in the night this town would have been in ashes.

The Town Trustees inform me that any one can whistle as much as they please. The law only had reference to unlawful assemblies, such as parading Juber and the flat dance on the public square or on the streets. They also state that there is no tax for any one selling in town anything to eat. The law only has reference to peddlers of clothing and other merchandise in our town. That's all right, gentlemen.

ON TO WASHINGTON.

Coxey's Commonwealth Army Now Numbers About Three Hundred.

PITTSBURG, April 6.—Coxey's Commonwealth army broke camp at Exposition park, Allegheny, at 10:30 o'clock and again took up the tramp to Washington. About 500 men were in line, recruits having been received during the two days' stay in Pittsburgh.

At Homestead an escort of 500 met the Commonwealth, and headed by the Homestead steel works band, paraded the principal streets on the way to the circus grounds, where dinner was served and camp pitch in. Later a meeting was held which was attended by several thousand people.

Previous to the arrival of the army, Burgess McWhinney swore in 20 deputies who will serve until the "soldiers" leave town.

Sixty-seven members of the army were arrested on the streets of Allegheny Wednesday night, and at yesterday's hearing 35 were discharged and 32 sent to the workhouse for 30 and 90 days. The workhouse now has 90 members of the Commonwealth to care for for the next month.

D. Kirtland, Jasper Johnston and Weady Iler, who are now on exhibition at a Pittsburgh dime museum, no longer belong to the Commonwealth. They have been ignominiously dismissed and their names scratched off the roll. Coxey said:

"We will have no dime museum freaks in this aggregation."

Immigration Report.

NEW YORK, April 6.—The report of the commissioner of immigration for the three months ending March 31, shows that 29,292 immigrants were landed, as against 40,032 for the corresponding period in 1893. Of the immigrants landed during the past three months about 40 per cent were Italians and less than 1 per cent were English-speaking people.

WHI RESUME Operations.

PHILADELPHIA, April 6.—The famous old Lanark mills in Frankford which have stood idle for 14 years will resume operations about May 1. James Baird's Sons are the owners and they will conduct the business of manufacturing ribbed underwear for women. One hundred hands will be employed.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
